

WASTE MANAGEMENT PLAN

For all works above \$5,000
Appendix H of Waste Guidelines 2021

About this form

- Submit this plan to Council as part of your Development Application.
- The purpose of this plan is to anticipate and estimate the types and volumes of waste materials generated from the development.
 - For waste being reused onsite, consider how the materials intend to be reused.
 - For waste removed offsite, nominate a licensed waste facility or engage a waste contractor.
 - When materials are recycled or disposed, keep a record of the receipts.
- To comply with Development Application (DA) conditions, a Waste Compliance Certificate Application is required prior to issue of an Occupation Certificate. Supporting documentation (receipts from recycling/disposal during the development) must be attached to that application.
